Swisscom IoT Qualified Product*

Manufacturer	>	Miromico AG
Type of Device	>	Temperature Sensor
Model Identification	>	miro Insight
LoRaWAN™ Region	>	EU863-870
Activation Method (OTAA or ABP)	>	OTAA
Firmware Version	>	1.3
Hardware Version	>	7
Date of Qualification	>	12.03.2021
LoRaWAN™ Specification Version	>	1.0.3
LoRaWAN™ Class (A, B or C)	>	A
ADR Supported	>	Yes
Special settings for Swisscom LPN	>	No
Additional Comments or Reservations		-

This Certificate serves to confirm that the above-mentioned product has passed all relevant tests in conjunction with Swisscom IoT Qualification program, namely LoRaWAN™ Certification, Interoperability compliance with Activity network servers and RF performance.

The Manufacturer has been granted the right to use the Swisscom IoT Qualified logo.

*Swisscom confirms that this product, as seen with the above stated firmware and hardware version, was compliant with its LoRaWAN™ network and network servers at the given time of the test and may now be used in productive quantities. Swisscom declines any responsibility, warranty or liability for the product itself including hardware, software, firmware as well as anything else related to the product such as accessories, documentation for instance.
